

BOLDROCCHI T.E.
TECNOLOGIE EVAPORATIVE

ABOUT US

Since 1911 Boldrocchi company has been in the forefront of the industrial ventilation and heat exchanger sectors.

The Boldrocchi group now comprises various companies that can offer solutions for different production lines.

The group employs 250 people, 130 of which work in production.

For more than 30 years the company has drawn on its relevant experience on technical and operative potential to design and build industrial cooling towers.

In order to meet the specific requirements of our customer, in 1992 was founded Boldrocchi T.E. to which Boldrocchi has drawn on this experience of operating in water cooling towers field.

Boldrocchi T.E. produces only cooling towers particularly suitable and strong, projecting to guarantee a continue function in heavy environment.
